HISTORY OF ARGENTINIAN SCHOOL TEXTBOOKS

The Digital Library of the History of Argentinian School Textbooks contains a collection of schoolbooks, organized chronologically by subject matter, obtained from the [Biblioteca del Docente](#), Ministerio de Educación, Ciudad de Buenos Aires.

The Biblioteca del Docente has collaborated extensively over the years with the MANES Research Center, having catalogued its store of school textbooks on the MANES database. As part of an agreement with the Biblioteca del Docente, MANES has also offered to host this interesting Digital Library.

This Digital Library will continue to be furnished gradually, as the digitalization process moves forwards.
