

[BiblioMANES](#)

The BIBLIOMANES Catalog is a bibliographical list of books, book chapters, articles, dispatches and other texts having to do with school textbooks, gathered from different countries but with an emphasis on those from Spain, Portugal, Italy and Latin America. This catalog is shared with CEINCE (Centro Internacional de la Cultura Escolar) and may therefore also be accessed from the CEINCE website [www.ceince.eu]. A green asterisk on a work in the bibliographical listing indicates that a print copy is available for consultation, both at the MANES Research Center and at CEINCE. The BIBLIOMANES Catalog is updated periodically.
